RE: DELTA PROJECT

Dear Ed:

Following up on our brief discussion last week, I now enclose the 2 WLKT U.S. application files, a copy of the consolidated application we used recently to file abroad (having obtained a license), and a copy of the initial U.S. Action which arrived the day you were here. Response seems to be due by October 20 (full 6-month period, since no shortened period was indicated), but you may wish to have someone check on that aspect. Please feel free to keep these files long enough to make whatever copies you want.

There are several questions needing attention in due course, and we'd like to schedule a full day on this subject during the week of July 13 or July 20. Before responding to the Action we should consider substituting the consolidated application for the two pending cases in this country; also, whether a CIP would be appropriate in view of more recent developments. There is also an issue regarding whether or not to broaden the present claims or, alternatively, to file an additional application of different scope in some respects. Whatever is decided, we need to keep in mind that foreign counterparts of the original U.S. cases can be expected to be published near the end of this year.

Of course, I realize that you won't have time to think about this until after this week's intensive effort on other matters.

Very truly yours,

Arthur I. Palmer, Jr.
